

# Visit to Mom's Garden

First 3 pictures are of Mom HERSELF with the apple tree in the background. The next pictures are of the garden. Be sure to note the horse radish. The rooster is the feisty one that always tries to get me. Note the potatoes coming up in the straw.

I was holding the camera at arms length to take those pics so my advice is don't do that.

Horse radish survivor

And, doing well!

Yes, that is a little tomato

Yukon Golds up already.

The little shit that tries to get me all  
the time

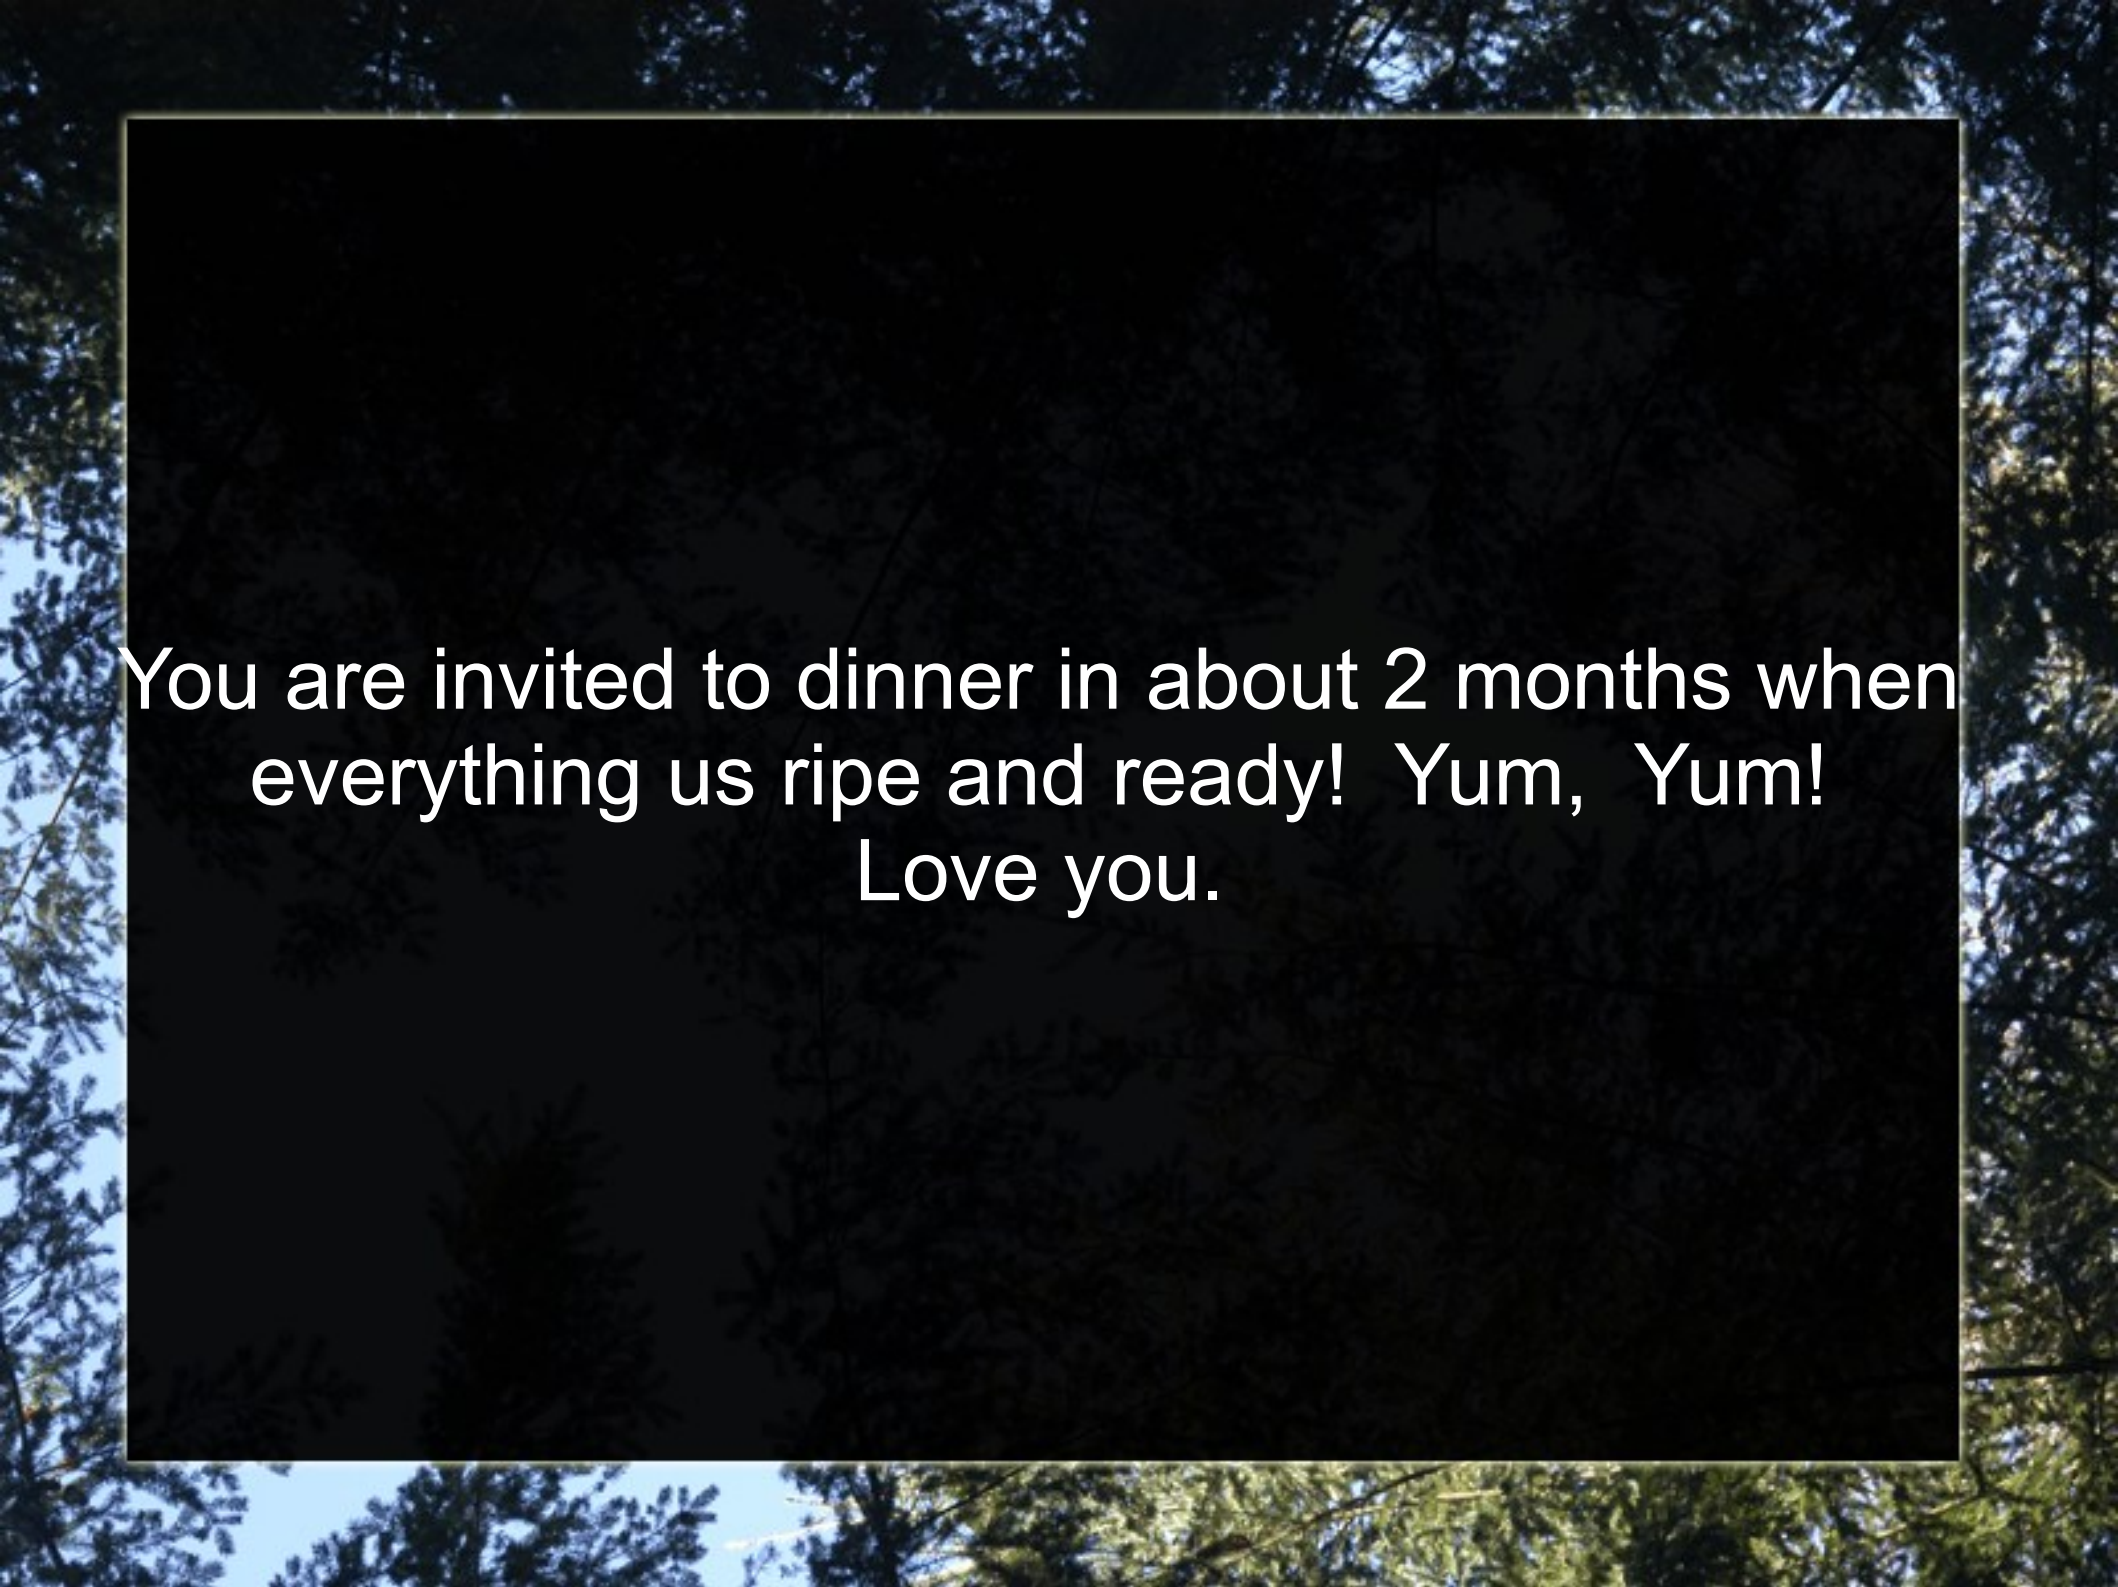

Looking back on a weeks work.  
Onions are up about 4".

You are invited to dinner in about 2 months when  
everything is ripe and ready! Yum, Yum!  
Love you.
